Digital tools : Learning through education

# Where is it ?

---

This is a vocational school  
located in the North-East  
of France .

This is a school including  
about 250 pupils  
from 15 to 20 years old.

There are about 25  
teachers in the school .

They teach :

**General subjects** : French ,  
English , Spanish, History ,  
Maths and Chemistry .

**Vocational subjects** linked  
to our vocational trainings.

- There are 4 main vocational trainings among which :

- LOGISTICS

- PRODUCTION LINES –  
FACTORIES

- DIGITAL SYSTEMS ( working  
on alarms and IT networks).

- **SECURITY JOBS**

Here you can see the Digital system section  
workshops with  
Mr Hammel

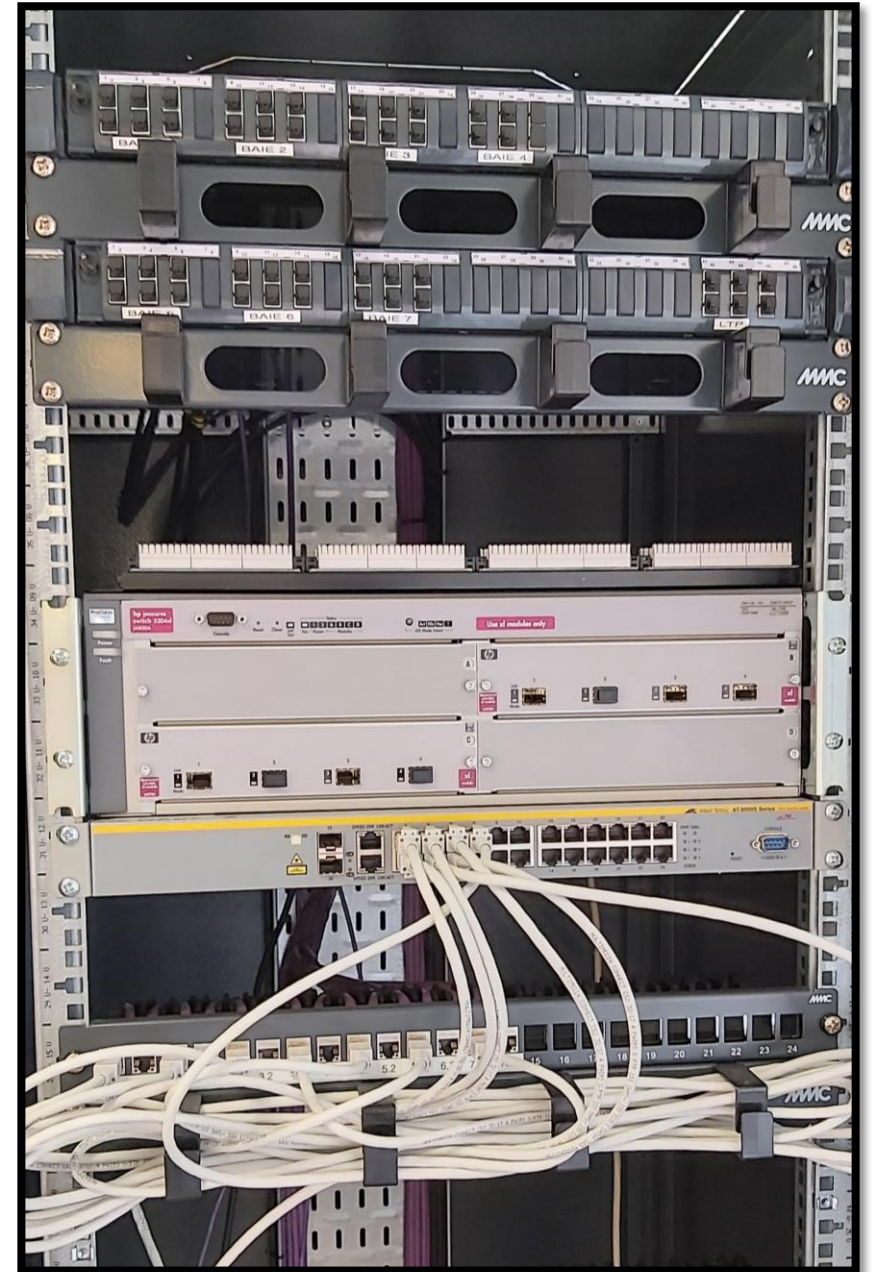

*During the workshops ,  
students learn how to do :*

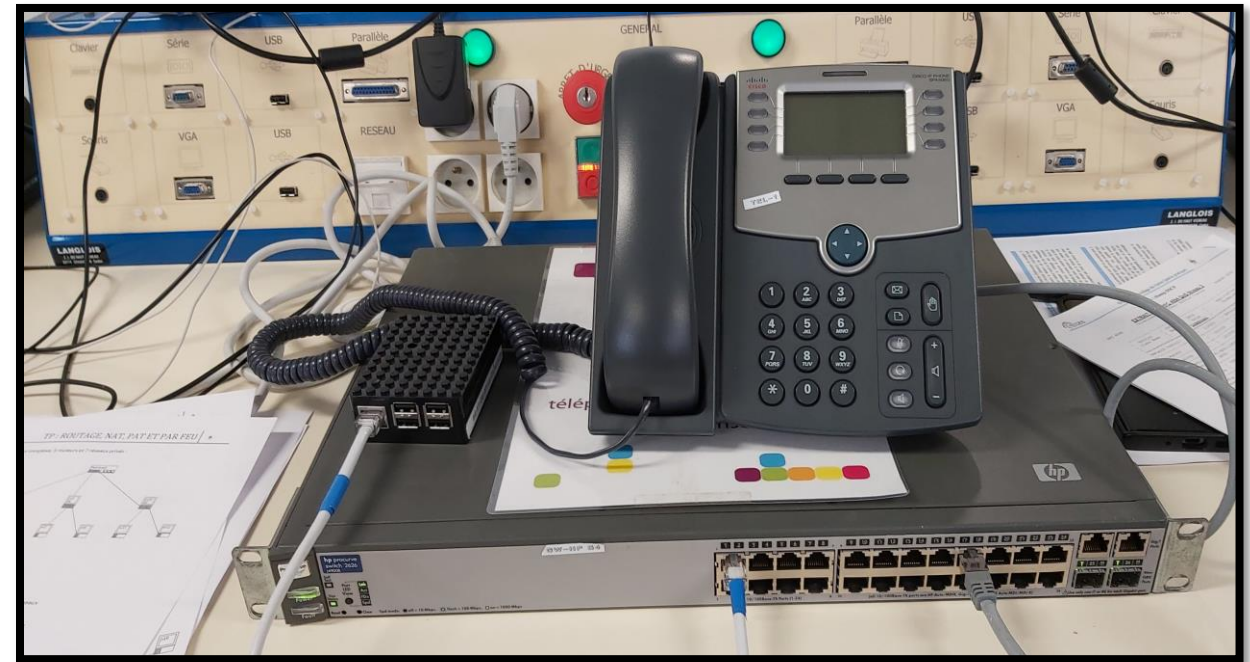

**① Wiring**

**② Wiring  
testing**

**③ Switch  
management**

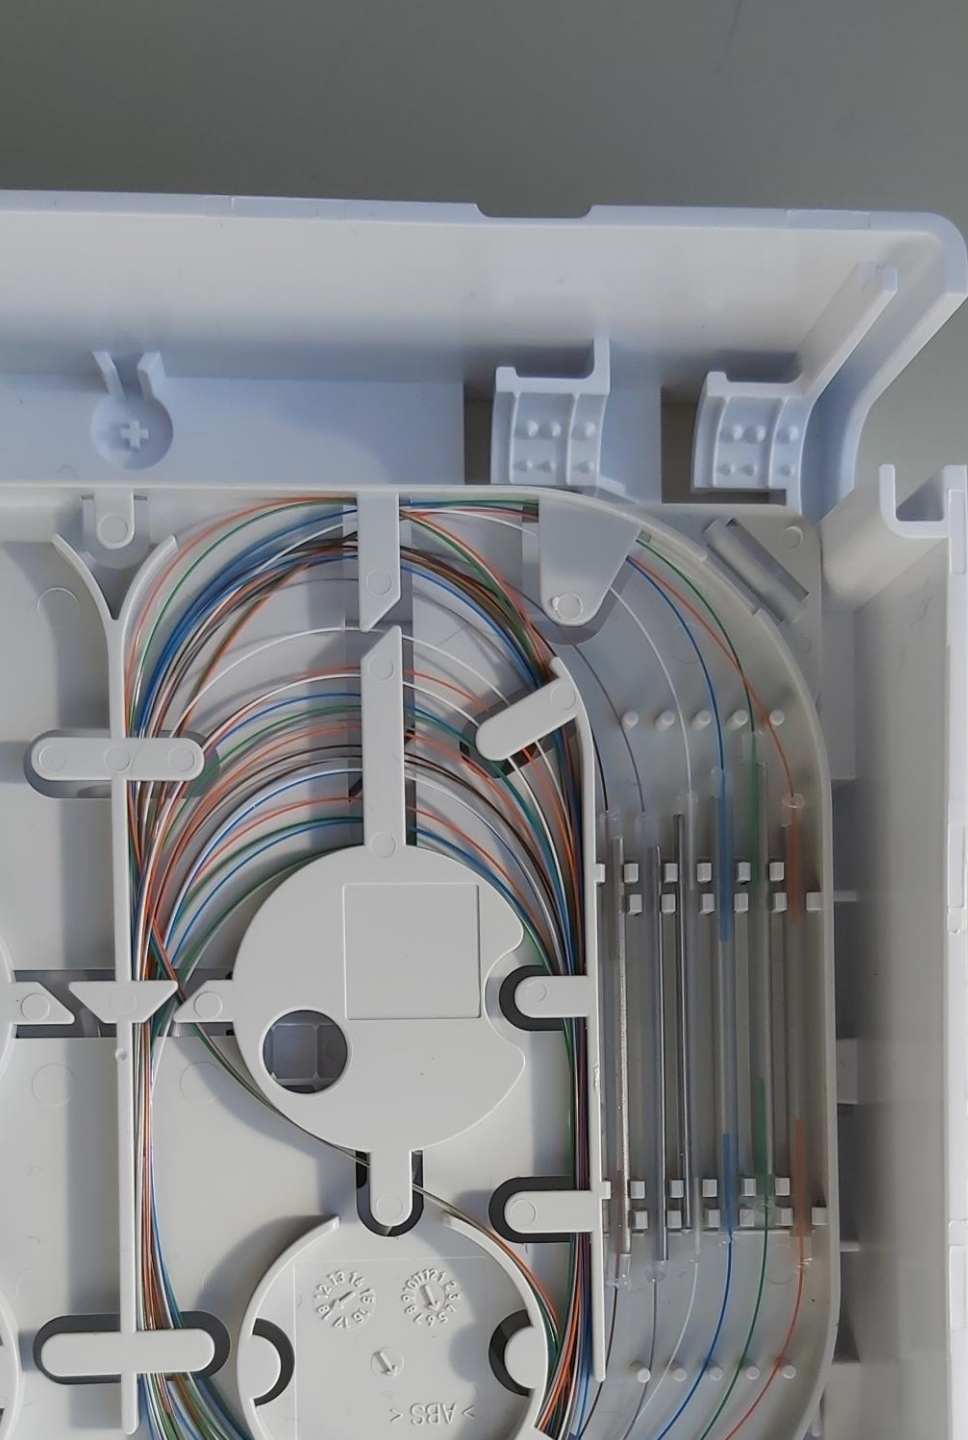

*But also*

Installing and  
setting TOIP =  
Telephony  
over IP

Assembling and setting  
computers

They also work on optical fiber wiring

This picture represents the 2nd existing option included in the digital system training leading to the final exam .

This is dedicated to alarm installing and setting .

(no intrusion in houses, fire alarms and access control.)

- Our school is also involved in many international projects .
- Last year we have been rewarded the Etwinning Label school .
- And we organised international events such as language week in May .
- We organise games and challenges with students.
